

Horningsea Parish Council Biodiversity Policy

BACKGROUND

In accordance with the duty imposed on town and parish councils by Section 40 of the Natural Environment and Rural Communities Act 2006, updated by Section 102 of the Environment Act 2021, Horningsea Parish Council (hereinafter referred to as the "HPC") which has any functions exercisable in relation to England must from time to time consider what action the authority can properly take, consistently with the proper exercise of its functions, to further the general biodiversity objective. This duty also means that town and parish councils can spend funds in conserving biodiversity.

DEFINITION

According to Defra (Biodiversity 2020), biodiversity is the variety of all life on Earth. It includes all species of animals and plants – everything that is alive on our planet. Biodiversity is important for its own sake and has its own intrinsic value. A number of studies have shown this value also goes further. Biodiversity is the building block of our 'ecosystems' that in turn provide us with a wide range of goods and services that support our economic and social wellbeing. These include essentials such as food, fresh water and clean air, but also less obvious services such as protection from natural disasters, regulation of our climate, and purification of our water or pollination of our crops. Biodiversity also provides important cultural services, enriching our lives.

AIMS AND OBJECTIVES

The object of this policy is to work towards conserving and enhancing the biodiversity of the Parish.

The HPC will consider sustainability, environmental impact and biodiversity when making decisions and will develop and implement policies and strategies as required.

In particular, the HPC will aim to improve the biodiversity of the area in the following ways:

- * consider the potential impact on biodiversity represented by planning applications.
- * manage its land and property using environmentally friendly practices that will promote biodiversity.
- * support local businesses and Parish Councils operations in the adoption of low impact / nature positive practices.
- * encourage and support other organisations within the parish to manage their areas of responsibility with biodiversity in mind.
- * support residents and local organisation activities to enhance and promote biodiversity.

ACTIONS

Planning applications

The HPC will:

- * when commenting on planning applications, support site and building design that benefits biodiversity through the conservation and integration of existing habitats or provision of new habitats.
- * support protection of sensitive habitats from development and will consider whether the development would mean the loss of important habitats for wildlife in respect of all applications.
 - * consider what each proposed development might make in terms of biodiversity net gain.
 - * include policies in support of biodiversity within the neighbourhood plan.

Land and property management

The HPC will:

* carry out a biodiversity audit of its landholdings

- * consider the conservation and promotion of local biodiversity with regard to the management of its open spaces. This will include adopting beneficial practices with regarding to cutting and removal of vegetation, application of chemicals and timing of maintenance work, paying attention to the Government's regulations for plant protection products.
 - * source sustainable materials when procuring supplies for the HPC use
 - * consider biodiversity issues and the implementation of changes when managing its buildings.

Local community

The HPC will:

- * raise public awareness of biodiversity issues, including through its website and newsletters
- * engage with local businesses and residents regarding biodiversity in the community and how members of the community can assist and make a difference.
- * where feasible, involve the community in biodiversity projects on its land including for example tree planting, wildflower meadows, birdbox making.

Partners

HPC will work in partnership with other organisations to protect, promote and enhance biodiversity within the Parish.

It will review any local nature recovery strategies, species conservation strategies, or protected site strategies in respect of local Sites of Special Scientific Interest (SSSIs) and consider how it may become more involved in implementing the strategies' recommendations.

MONITORING

This policy was adopted at a meeting on 9th October 2024 and will be reviewed in two years or sooner should legislation dictate / each year at the Annual Meeting. A summary of how the policy has been implemented will be published annually, with reference to the original biodiversity audit to show progress.

Action Plan

Site/ Objective	Action	Outcome	Target (years)	Reporting/ Publicity
Whole Village	Raise local awareness of biodiversity.	Gain local support for action.	Ongoing	Horningsea Herold, WhatsApp, Noticeboards, website
Protect and support biodiversity	Encourage suitable planting to support biodiversity.	Connect & diversify habitats to meet the needs of a variety of wildlife species	Ongoing	Mapping
Increase community awareness of biodiversity	Ask residents for their views on what they would like to be done to conserve biodiversity within the parish. Raise awareness of the importance of gardens as habitats for wildlife, with possible actions highlighted in the parish magazine. Create a page on the parish council website for photographs / information / links Encourage local farmers to contribute. Provide seed bombs / bulbs etc. for residents' use. Discourage floodlighting.	Engagement/ownership of biodiversity. Promote Extending habitats. Protect nocturnal animals.	Ongoing	Horningsea Herold, WhatsApp, Noticeboards, website
Support Community Projects	Support hedge/tree planting in any appropriate areas. Work in partnership with the school to develop young people's awareness of the environment around them. Consider events and offer volunteering opportunities to support biodiversity, working with local organisations.	Extending habitats. Promote biodiversity.	Ongoing	Horningsea Herold, WhatsApp, Noticeboards, website

Playground	Look at the installation of bird and or butterfly boxes on the side of the old village hall/ Look at planting hedging along fence line	Promote sympathetic biodiversity suitable for a playground	Ongoing
Jubilee Gardens	Look at additional planting of trees and bushes		Ongoing
Old Village Green	Sympathetically maintain hedging/ Leave some areas un-mown/ look at planting wildflower beds	Food sources and cover/ Encouraging insects, particularly butterflies and bees. / Sustain and enhance natural habitats	Ongoing
Cemetery	Adopt a plan to support wildlife and diversity whilst maintaining the site in a way which enables visitors to experience quiet and calm remembrance./ install birdboxes/ addition tree planting/ Leave leaf litter in designated areas as habitat for invertebrates	Sustain and enhance natural habitats	Ongoing
Roadside verges	Additional tree planting and the installation of wildflower strips	Sustain and enhance natural habitats	Ongoing
Dock lane	Additional tree planting and the installation of wildflower strips	Sustain and enhance natural habitats	Ongoing
St John's Lane	Additional tree planting and the installation of wildflower strips	Sustain and enhance natural habitats	Ongoing
Other Common Areas			
Church yard	Adopt a management plan with the Church	Sustain and enhance natural habitats	Ongoing
Village Green	Adopt a management plan With the village green trust	Sustain and enhance natural habitats	Ongoing
The Orchard	Adopt a management plan With the village green trust	Sustain and enhance natural habitats	Ongoing
Highway verges (north end of village)	Look at planting additional trees and wildflowers	Food sources and cover/ Sustain and enhance natural habitats/ Encouraging insects, particularly butterflies and bees.	Ongoing
